EDUCATION

- **California Polytechnic State University, San Luis Obispo** San Luis Obispo, CA
Bachelor of Science in Computer Science; GPA: 3.76 *Sept. 2021 – June. 2025*
Relevant Coursework: Intro to Database Systems, Design and Analysis of Algorithms, Project-Based Object Oriented Programming and Design, Systems Programming, Discrete Structures, Intro to Software Engineering, Intro to Computer Organization, Data Structures, Intro to Computing: Security, Fundamentals of Computer Science

EXPERIENCE

- **Lockheed Martin Space** Sunnyvale, CA
Artificial Intelligence and Machine Learning Research Intern *June 2023 – Present*
 - **Convolutional Neural Networks** : Utilized convolutional neural networks and employed various model training strategies, including data augmentation techniques, to enhance the performance of object recognition, detection, and tracking tasks.
 - **Technologies Used:** Python, JupyterNotebook, TensorFlow, Keras, Scikit-Learn, OpenCV
- **HaptX Inc.** San Luis Obispo, CA
IT Engineering Intern *Mar 2023 – June 2023*
 - **Conditional Access Policy Creation:** Implemented advanced Microsoft Azure Conditional Access policies to enforce granular security controls based on user location, IP address, reputation score, and other risk indicators.
 - **Hardware Management and Workspace Optimization:** Repaired, upgraded, and tested company computers and hardware. Assisted in setting up and organizing desks, managing cables, and configuring workspaces.
 - **Technologies Used:** Microsoft Azure, Microsoft Intune
- **Cal Poly Information Technology Services** San Luis Obispo, CA
Junior Security Operations Center Analyst *June 2022 – Feb 2023*
 - **Security Incident Response:** Analyze and take action against suspicious logins, phishing emails, and network traffic using Splunk, Microsoft Azure, and other security tools.
 - **Slack App Development:** Developed a Python-based Slack app to automate email, suppression, and blocking procedures.
 - **Technologies Used:** Splunk, Python, Slack API, Linux

PROJECTS

- **Plan2Gather:** Developed web app that allows users to create events and analyzes best times to meet based on attendees.
- **Portfolio Website:** Built a portfolio website using JavaScript and HTML/CSS to showcase my projects and skills. Hosted on CloudFlare Pages.
- **Custom PC Builder and Trader:** Maintained PostgreSQL database of computer parts and integrated with Python fastAPI backend to allow for selling and purchasing of parts.
- **Wash Alerter (Hackathon):** Built a Python program that scraps data off of Cal Poly's laundry website and alerts users when washers and dryers are available.

CAMPUS INVOLVEMENT AND VOLUNTEER WORK

- **Cal Poly Security Club, Member** *Dec 2022 – Present*
- **Computer Engineering Society, Member** *Sept 2021 – Present*
- **SLO Hillel, President** *Sept 2021 – Present*
- **Youth Leaders of Meniffee, President** *Aug 2019 – June 2021*

PROGRAMMING SKILLS

Languages: Python, SQL, Java, C, C++, JavaScript, HTML/CSS, TypeScript

Technologies: TensorFlow, Keras, Scikit-Learn, Linux, MacOS, Windows, Microsoft Azure, Cloud-Flare, GitHub, Amazon AWS, Agile, Jira, Splunk
